

Agri Plus Insulation

Agri Plus Insulation

- DESCRIPTION:** Blanket Insulation c/w Vapour Barrier
- 2" Thick x 48" Wide x Custom Length
 - 2" Thick x 48" Wide x 22' Roll
 - 2" Thick x 48" Wide x 50' Roll
 - Other thicknesses and R Values available. (Allow 1-2 weeks for delivery)

ORDERS FROM STOCK: 22' or 50' Rolls

CUSTOM ORDERS: Any length, minimum 5000 sq. ft.
(Allow 7 business days for delivery)

- FEATURES:**
- R Value = 7.0
 - A fibred flexible blanket of insulation faced with a white reinforced vapour barrier
 - Controls condensation
 - Permanent cost-effective thermal performance; keeps building warm in winter, cool in summer
 - Brightens interiors due to high light reflectance
 - Effective vapour retarder
 - Economical and easy to install in new or existing buildings
 - Ideal for livestock confinement areas, riding arenas, workshops, storage sheds, pack barns

- INSTALLATION:**
1. Roll out insulation as evenly as possible. Allow 2' extra for Roof rolls and 1' extra for walls.
 2. Pull down to smooth out facing and temporarily secure in place (vice-grips, clamps, etc.)
 3. Butt rolls closely together and fasten tabs per instructions.
 4. Pull tabs back through and staple with plier stapler (Arrow P-22 or equal) every 6". Fold tab over and staple between each original staple.
 5. Fasten metal sheet according to manufacturer's instructions.
