AG-DOOR

- Quality components that are made to withstand extreme Canadian weather
- All door components are rot-resistant, rust resistant, and easy-to-clean
- The aluminum sill is adjustable by removing the screw caps and tightening the adjustment screws to always create a good seal
- Outside door dimension for a 3' 0" x 6' 8" door are: 37 1/2" x 81 3/4" which requires an (RSO) Rough Stud Opening of 38 1/2" x 82 1/4"
- Doors are available in standard left and right hand inswing and also left and right hand outswing
- Standard Agri-doors have 4 5/8" jambs, and ball bearing stainless steel hinges

COMPONENTS

- The aluminum sill is thermally-broken
- The weather-stripping is high quality and low-wicking
- The fiberglass door slabs have an insulation value of R13
- The fiberglass door slabs are LVL reinforced plus a metal reinforcement bar
- The fiberglass doors and jambs are factory prefinished and do not require painting
- Jambs are machined to fit a large stainless strike plate, no chiseling required, simply push strike plate into machined area and fasten plate with two supplied screws
- Jambs are predrilled behind weather-stripping for easy installation

EXTRA OPTIONS
