Trius

Trius, Agway Metals' latest breakthrough wall cladding profile combines unmatched durability with aesthetic finesse, elevating your project to new heights. Featuring a pre-punched slotted strip for hidden fasteners, which enhances the profiles sleek appearance and assists in streamlining installation.

Features

- Manufactured in 26 GA. Available in 24 GA on request, check with a sales representative for lead time.
- Minimum length 36" (914.4 mm), custom lengths 240" (6096 mm) max length
- Hidden fastener installation – secure to supports with fasteners in the center of the slots at spacings specified by project engineer (do not over-tighten)
- Ease of installation saves on labour
- 18" (457.2 mm) Coverage
- Uses standard trims

Applications

- Accent Panels
- Vertical Wall Installation (with special trims)
- Horizontal Wall Installation (Installs bottom to top)
