OPTIMUM RIB

A lightweight, practical profile for agricultural roofing and siding, Optimum Rib offers a clean, modern appearance with straightforward installation. Available in a wide selection of colours, it pairs with Agway's full range of trims, vents, fasteners, and accessories to create a durable, professionally finished exterior.

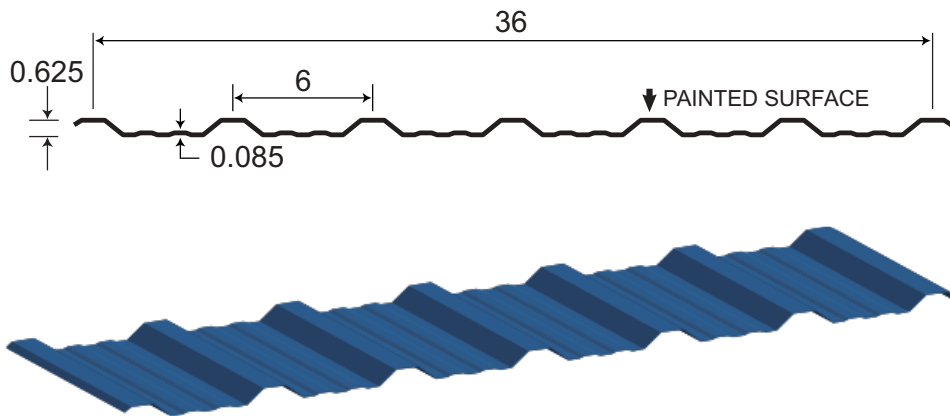

SPECS & FEATURES

- Available in 29 (GRD80) & 26 gauge (GRD33)
- Custom lengths: 30" to 480"
- 36" coverage
- 34 standard colours
- G90 coating for all prepaint and galvanized

NORDET 36

A popular selection for larger agricultural projects, Nordet 36 is a lightweight wall cladding profile that combines ease of installation with long-term durability. Suitable for vertical or horizontal installation, it can also be used as an industrial liner panel. Its weather-resistant finish and low-maintenance design make it a practical choice for demanding environments.

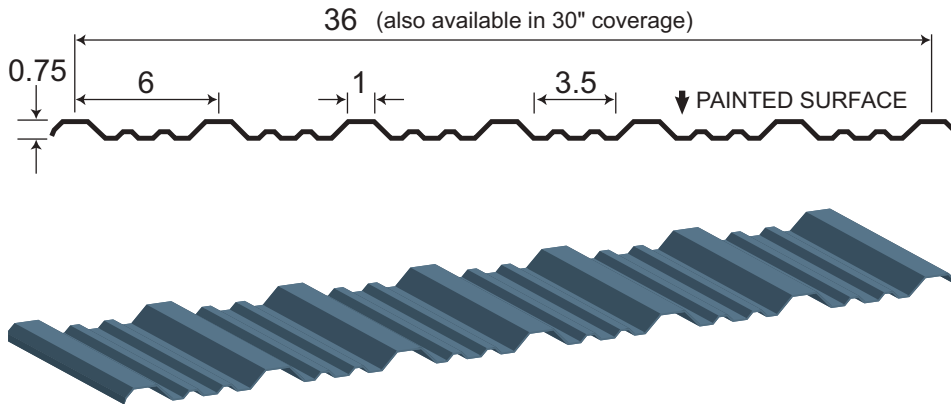

SPECS & FEATURES

- Available in 29 (GRD80) & 26 gauge (GRD33)
- Custom lengths: 48" to 480"
- 36" coverage
- 34 standard colours
- G90 coating for all prepaint and galvanized

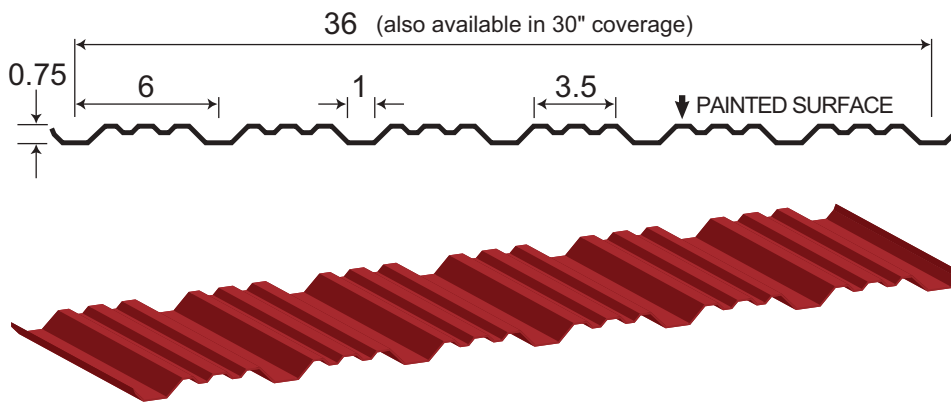

DIAMOND RIB

Available in gauges from 29 to 22, Diamond Rib is a highly versatile profile suitable for roofing, wall cladding, interior liner panels, or accent applications alongside other Agway profiles. Its flexibility makes it an ideal solution for agricultural, commercial, and industrial projects.

DR6-75

DR6-75 features an inverted Diamond profile, which presents a visually 'softer' finished look to surfaces.

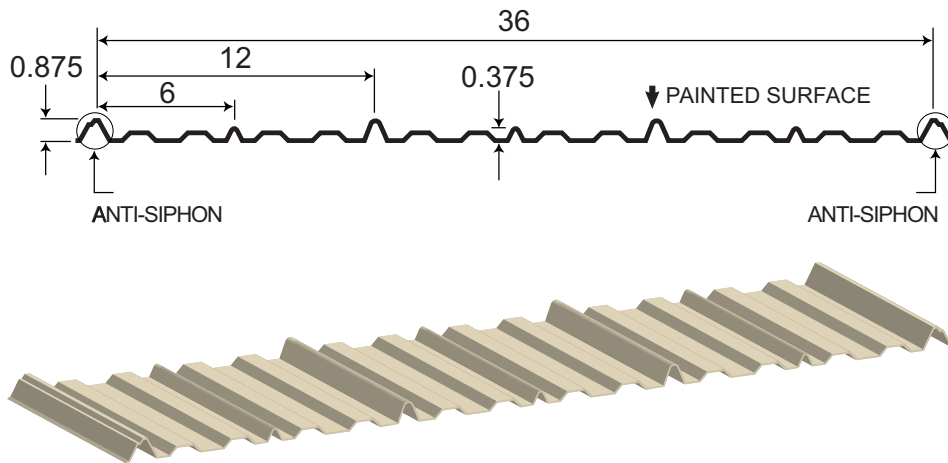

SPECS & FEATURES

- 36" coverage available in 29 (GRD80) & 26 gauge (GRD33)
- 30" coverage available in 29 (GRD80) to 22 gauge (28-22G is GRD33)
- Custom lengths: 16" to 540" in 36" coverage
- Custom lengths: 16" to 480" in 30" coverage
- 40 standard colours
- G90 coating for all prepaint and galvanized

CENTURY RIB

Built for dependable performance and exceptional value, Century Rib is a trusted choice for agricultural roofing and siding. Its classic profile provides long-lasting protection, while a variety of colours and compatible accessories make it easy to achieve a cohesive, high-quality finish.

SPECS & FEATURES

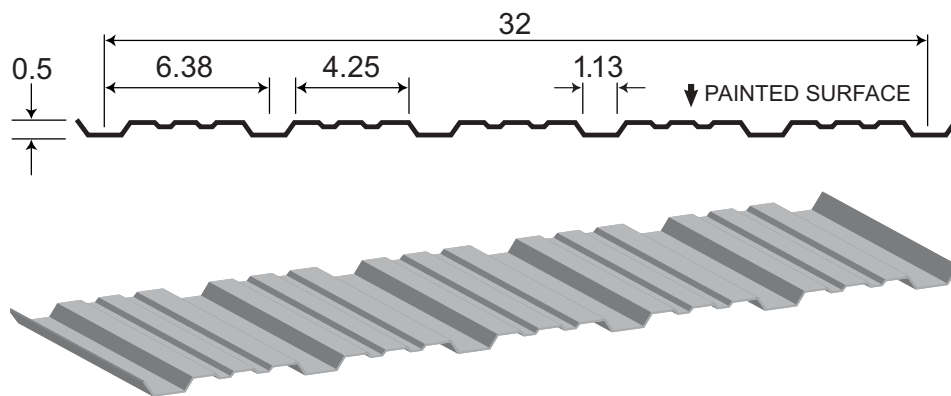

- Available in 29 (GRD80) & 26 gauge (GRD33)
- Custom lengths: 16" to 540"
- 36" coverage
- 36 standard colours
- G90 coating for all prepaint and galvanized

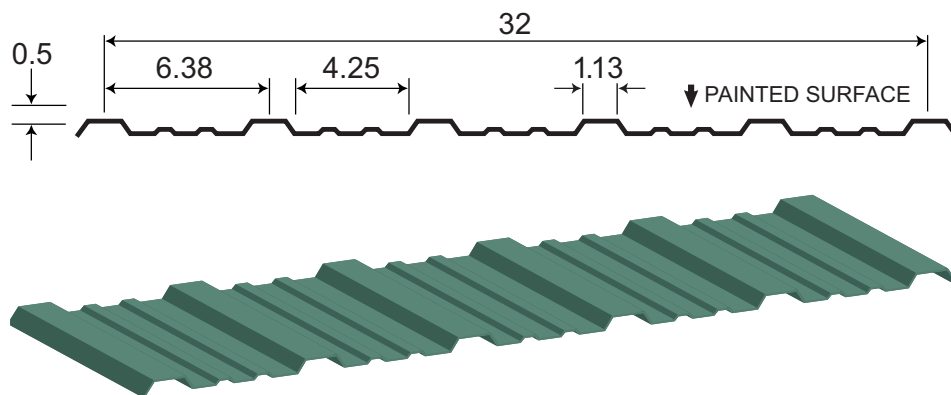

CH-32

CH-32 is a versatile wall panel system that delivers a clean, finished appearance for both exterior and interior applications. Its 32-inch coverage allows for efficient installation either vertically or horizontally, while its durable, low-maintenance construction ensures lasting performance. Available in a range of colours, CH-32 integrates seamlessly with Agway's trims, fasteners, and accessories for a complete wall system.

CH5-32

CH6-32

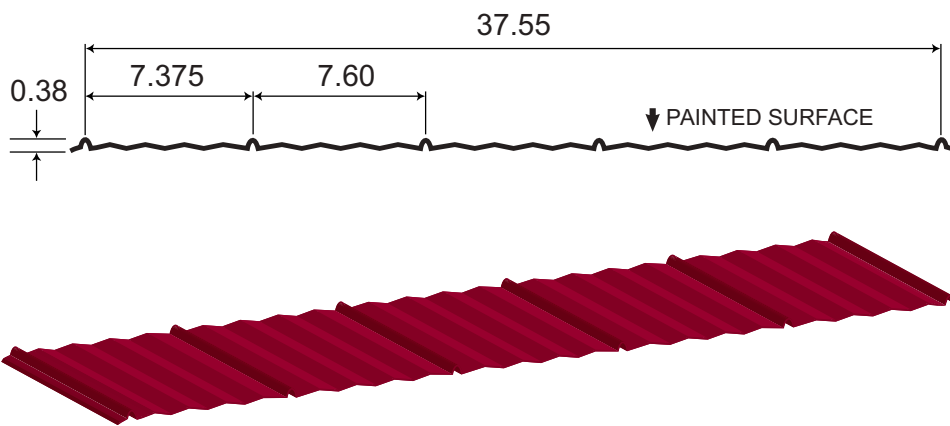

SPECS & FEATURES

- Available from 29 to 22 gauge (all are GRD33)
- Custom lengths: 10" to 540"
- 32" coverage
- 24 standard colours
- G90 coating for all prepaint and galvanized

LO-RIB

Among the most economical panels on the market, Agway's lightweight Lo-rib profile is ideal for use on high sloped roofs, or as exterior and interior siding. Lo-Rib installs easily and adds a professional finish to any structure. Available in a wide range of colours, Agway's Lo Rib profile, combined with available trims, fasteners and other accessories, provides a complete solution for any project.

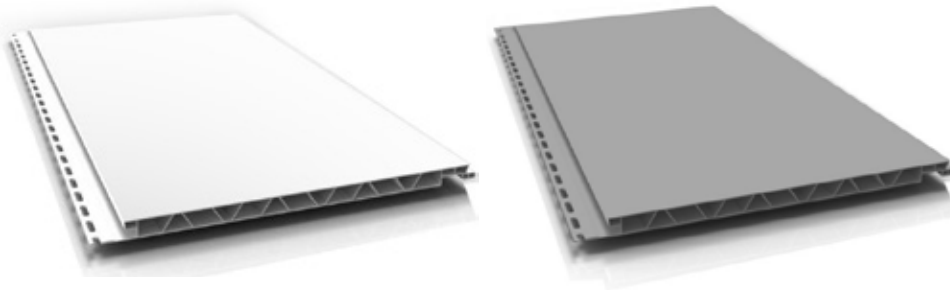

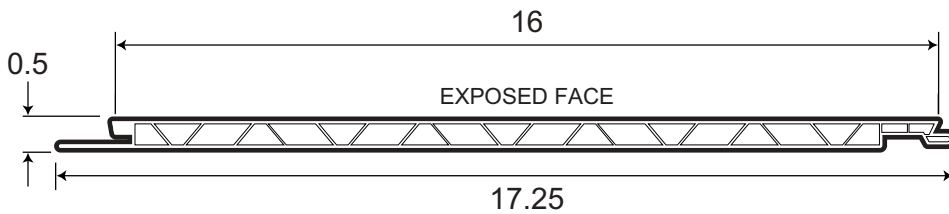

SPECS & FEATURES

- Available in 29 (GRD80) & 26 gauge (GRD33)
- Custom lengths: 10" to 540"
- 37.55" coverage
- 34 standard colours
- G90 coating for all prepaint and galvanized

Wall&CeilingBoard BY TRUSSCORE

Trusscore Wall&CeilingBoard is designed with a high-strength polymer formulation and engineered to be the perfect alternative to traditional Fiberglass Reinforced Plastic and drywall systems. Trusscore's tongue and groove interlocking system makes installation quick and easy, and the unique truss design provides industry-leading strength and durability. Where you need a smooth finish that is easy to clean, low-maintenance, and abuse-resistant, choose Trusscore.

SPECS & FEATURES

- Industry leading ½ inch thick panel with unique inner truss design for high-strength and rigidity
- Can be used for new construction or retrofit
- Comes in standard and custom lengths
- Standard trims in stock
- Hidden fasteners & pre-punched screw flange
- Resistant to chemicals and moisture
- Class A fire performance (ASTM E84/ULC S102)

White

- Stocked in 8ft, 10ft, 12ft, 14ft, 16ft, and 20ft

Grey

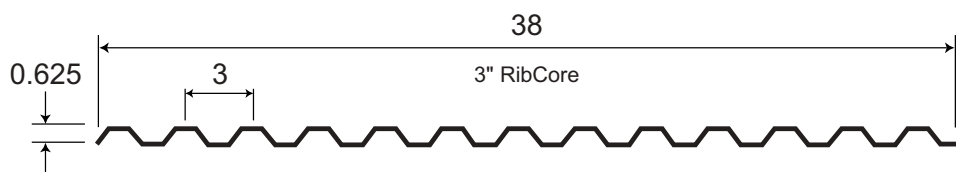

- Stocked in 8ft, 10ft, 12ft, 16ft, and 20ft

RibCore BY TRUSSCORE

RibCore by Trusscore is a high-strength PVC corrugated panel that is long-lasting, cost effective, and simple to install and maintain. Ideal for a broad range of agricultural, commercial, and industrial applications, including: drive sheds, warehouses, public bathrooms and showers, garages, agricultural pole barns and facilities, horse stables, and dog kennels. RibCore corrugated PVC panels can be used for ceiling or wall applications.

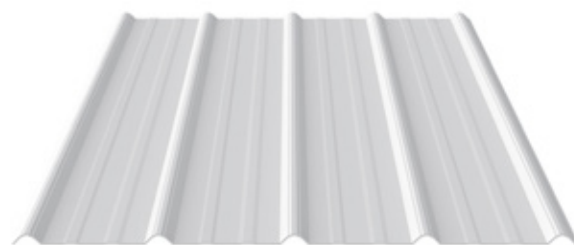

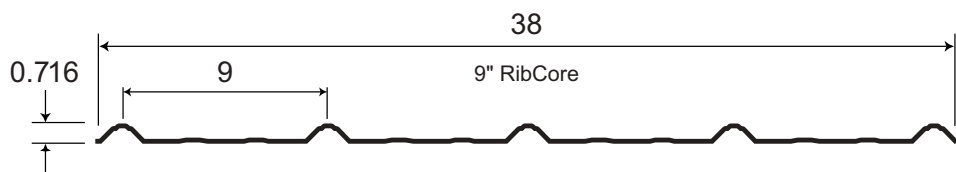

3" RIBCORE

3" White RibCore

- Stocked in 12ft, 14ft, 16ft, and 20ft
- Custom lengths available on request

9" RIBCORE

9" White RibCore

- Available by special order only

SPECS & FEATURES

- White high-strength PVC corrugated sheet
- Compliant with USDA/FDS, CFIA, and CGMP requirement for use in food production and processing facilities
- Bright high gloss finish with superior light reflectivity
- Easily cleaned and will not rot or rust

POLYCARBONATE PANELS

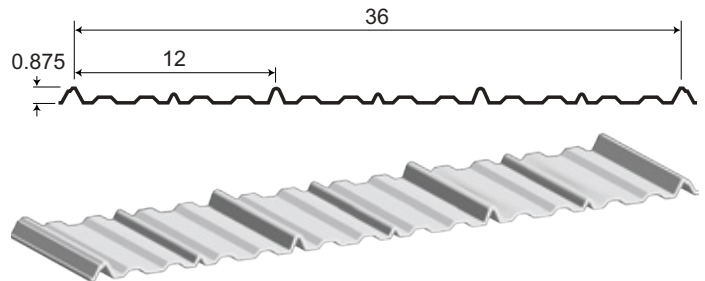

Agway has two Polycarbonate Panels to choose from. The Polycarbonate Century Rib panel and the Profiled Polycarbonate Panel. Both are ideal for Agricultural growing areas, seeding frames, skylights, riding arenas basically any requirement for "glass-like" uses. A Polycarbonate Clear Ridge Cover that has the capability of eliminating 98% UV light is also an option.

SPECS & FEATURES

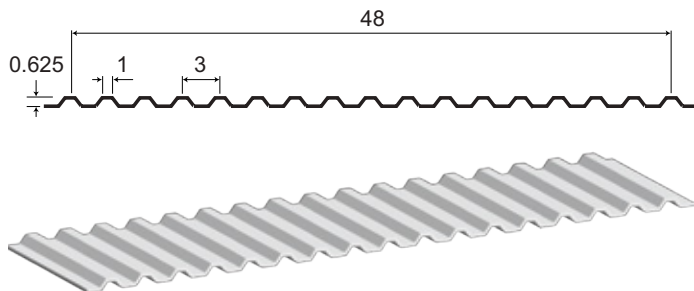

- UV resistant
- 10 year limited warranty on yellowing or loss of light transmission
- Up to 90% light transmission
- 20 times the impact resistance of fiberglass of equal thickness
- Resists breaking or cracking due to hail, wind and accidental impact

POLYCARBONATE CENTURY RIB PANELS

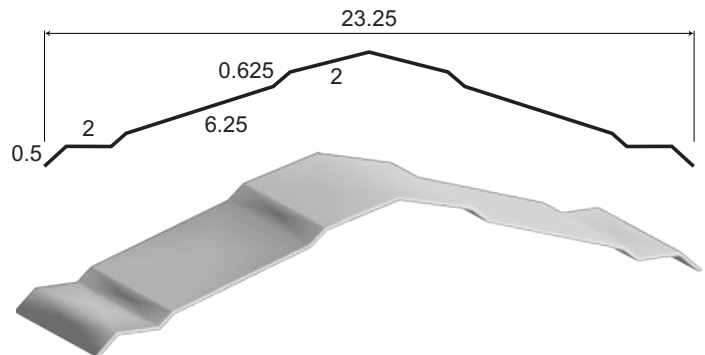

PROFILED POLYCARBONATE PANELS

- Available in clear or solar grey
- Condensation control allows water to form a thin sheet rather than droplets

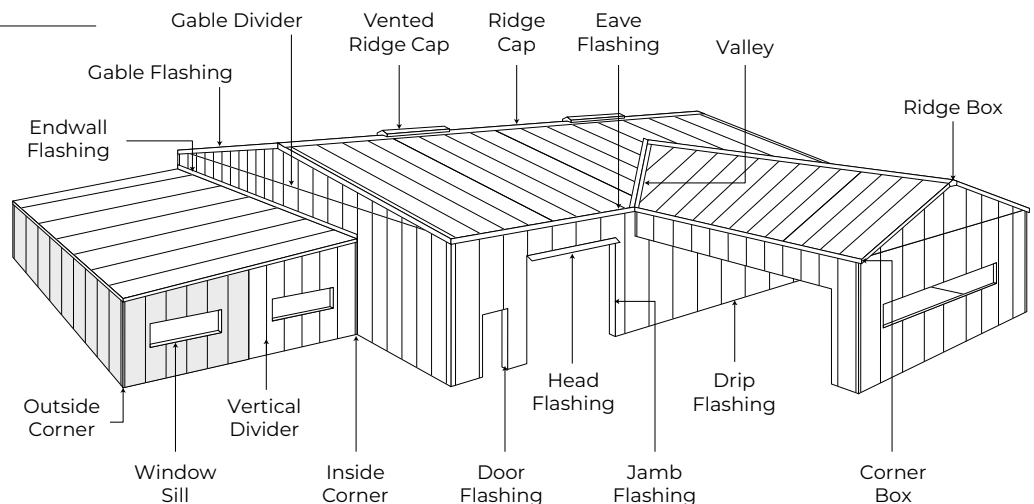

POLYCARBONATE CLEAR RIDGE COVER

- 23.25" wide x 10' lengths
- 20 times the impact resistance of fiberglass of equal thickness with a low temperature extreme of -40°C (-40°F)

TRIMS & FLASHINGS

At Agway you can find everything required in flashings and trims in order to complete your light gauge cladding requirements. From Outside Corners to Vents, Ridges and Valleys, Agway has it all. Trims come in standard 10' lengths, but can be ordered in lengths up to 20', and from 29 to 24 gauge. Custom flashings are also available on request.

PROFILES & GAUGES

Agway's steel roofing and cladding is 100% recyclable and backed by a 40 year paint warranty

Try Agway's online Agricultural Colour Visualizer tool to preview what your new building could look like when incorporating a variety of available options, in one of four building styles.

 Light colour swatches shown with an outline for visibility

- 1) Grade 80
- 2) Interior use only
- 3) 8 mil interior coating is QC1546 Interior White

Colours shown are printed approximations of actual painted product, and may vary slightly.

* Metallic paint finishes are directional in nature. In order to ensure consistency of shade and colour, all metallic material for a project should be ordered at the same time to ensure that it is all produced from the same paint batch.
